In the matter of:

**SUO-MOTO -DETERMINATION OF COMPLAINEE OF RENEWABLE
POWER PURCHASE OBLIGATION OF OBLIGATED ENTITIES FOR FY
2019-20(including the shortfall of FY 2018-19). FY 2020-21(including shortfall
of FY 2018-19 & FY 2019-20) , FY 2021-22 (including the Shortfall of FY 2018-
19,2019-20,2020-21).**

OBJECTIONS

In accordance with the provisions of the Regulation No.2 of 2018 (TSERC Renewable Power Purchase Obligation (Compliance by purchase of Renewable Energy/ Renewable Energy Certificates) Regulations, 2018

Under regulation no 2 of 2018 we have submitted our Renewable power purchase obligations; we M/s Orient cement ltd have purchased RECs based on captive consumption from 1st to Month end of every financial year. The data which is reflected on TSERC site is based on 21st to 21st of every financial year. Earlier it wouldn't make much difference as in cumulative self-consumption got matched but in FY 2019-20 due to covid lockdown our plant got stopped in the last week of march-2020 , self-consumption of M/s orient cement ltd is given as 209772.62 MWH(These readings are as per joint meter readings on 21st of every month which we have sent the data to TSNPDCL) but self-consumption is 203581.260MWH(these consumption details are of 1st to end of the month).

FY	CPP Self consumption from 1st to month end in MWH	REC's PURCHASED		Based on 1st to month end	
		Solar (Qty)	Non-Solar (Qty)	Solar	Non-Solar
		FY 18-19	235666.954	12650	1600
FY 19-20	203581.260	11758	1493	11746.64	1486.14
FY 20-21	158960.440	9872	1256	9871.44	1255.79
FY 21-22	189534.920	13469	1708	13456.98	1705.81
		47749	6057	47636.11	6026.71

For every financial year we recommend to give grace period of one month so that we can purchase exact REC's for fulfillment of RPPO, as whenever we are purchasing in MARCH (last Wednesday) we end up purchasing more REC's due to this issue , If Purchased excess kindly consider those excess REC's to carry forward for next financial year.
